ABORTION

A stylized illustration of the Earth, showing continents in green and oceans in white. A thick, black, diagonal line, resembling a pen nib, points from the top left towards the center of the globe. The tip of the pen nib is embedded in the globe, creating a large, dark, jagged crack that radiates outwards across the surface of the Earth.

**Violations of
the Sanctity of
Human Life**

God created man in His own image,
in the image of God He created him;
male and female He created them.

GENESIS 1:27

210 million image-bearers of God are formed every year in their mothers' wombs. Most are brought to term to be born, while many are lost to miscarriage. About twenty-five percent of those pregnancies—56 million—end in abortion. This is more than **all** yearly global deaths from **all** causes, including disease, starvation, war, murder, accidents, old age, and more.

What God intended as the **safest** place on Earth for a child—her mother's womb—has become the most **dangerous** place. Preborn children are, in fact, the most hidden, most persecuted, and most unreached people group on the face of the Earth.

At LIFE International, we recognize that human life is assaulted and violated in numerous ways. Abuse, abandonment, corruption, murder—these are just a few of the ways that God's image is diminished when one person devalues another. Abortion is chief among all these violations; **it is the tip of the spear.**

Abortion is a deep offense against the preborn child, but it is also a direct attack on God, in whose image the preborn child has been made. Abortion not only ends a life, it is—according to Mother Teresa—**“the greatest destroyer of love and peace.”** This can be seen in the deep fractures throughout families, communities, and entire nations.

The mission of LIFE International is to partner with Gospel leaders to multiply life-giving ministry wherever abortion exists. **We want to see the bride of Christ boldly advancing God's global life movement,** saving preborn lives, healing broken hearts, and proclaiming the infinite value of His image in all people.
